Crystalline waters, wet wading  
and sightfishing.

Located near the village of Las Lajitas, in the middle of the Yunga Saltena, lies the famed Rio Dorado. With the Rio Dorado's crystal clear water flowing from the sub-tropical mountains, that are adjacent to the El Rey National Park, it provides excellent wet wading and sight fishing. Light equipment in the six to seven weight range with floating lines are ideal.

The dorado in this beautiful river average 3 kg with the capture of fish up to 12kg a possibility. Rio Dorado gives us a unique opportunity to sight fish dorado much the same way as you would a trout. Accommodation is in our exclusive lodge, San Fernando, which is loaded with all the amenities needed.

After fishing this pristine river we move to our bigger river the Rio Juramento and our base at El Tunal. This river holds huge golden dorado with the record weighing over 20kg. The Juramento River is fished drifting from inflatable rafts and has multiple different sections allowing new water to be fished each day. There is over 100km of water to drift and fish, casting to likely structure, searching for a hungry dorado to crash your fly.

***Juramento Fly Fishing*** Company has 20 plus years of experience and is the longest serving outfitter for golden dorado in Salta Argentina. *Juramento Fly fishing is the exclusive operator on the Rio Dorado.*

# Accommodation

---

San Fernando Lodge  
Rio Dorado

Accommodation is based on twin share rooms at both El Tunal and Dorado River Lodge with hot showers and amenities available at both sites. The rooms are simple and comfortable. Bedding towels are provided.

## Meals & Beverages

Meals and beverages are provided each day, including Argentina's impressive local cuisines of meat BBQ, empanadas, local wine, beer – you will never go hungry (or thirsty).

---

Daily Temperatures Average day time temperatures in October are the mid 20's. The expected maximum would reach 28C, the lowest, 12C. It can be humid in the jungle. It is not necessary to bring waders as the water is warm you will be drifting/wet wading on the Juramento River wet wading on the Dorado River. There is some potential of sand flies/ticks in the jungle so you will want to be fully covered. See *gear list*.
